

Curriculum Vitae

Name: Iven S. Young

Home: 11 Fifth Avenue
New York, NY 10003

Born: May 31, 1934

Place: Brooklyn, New York

Education: B.A., University of Pennsylvania
1955 (1951-1959)

Academic Honors: University of Pennsylvania, Philadelphia
Phi Beta Kappa
New York University – College of Medicine
Alpha Omega Alpha

Post Graduate Training: Internship – Third Medical Division
Bellevue Hospital, New York
July 1, 1959 to June 30, 1960

Assistant Resident in Medicine
New York Veterans Administration Hospital
July 1, 1961 to June 30, 1962

Senior Resident in Medicine
Chief Resident in Medicine
New Veterans Administration Hospital
July 1, 1962 to June 30, 1963

Post-Doctoral Fellowship
National Institute of Health
July 1, 1962 to June 30, 1963
Research performed at the New York
Veterans Administration Hospital and the
Department of Therapeutics
New York University Medical Center

Fellowship in Endocrinology
Department of Therapeutics
New York University Medical Center
July 1, 1963 to June 30, 1966

Licensed in the use of radioisotopes
since August, 1963

Academic Appointments: Clinical Associate Professor of Medicine
Langone, New York University Medical Center

Hospital Appointments: Attending in Medicine
Firm Chief Medicine
Langone, New York University Medical Center
2010-Present

Attending in Medicine and Chief of Endocrinology
and Program Director
Saint Vincent's Hospital and Medical Center
New York, New York
1966-2010

Board Certification: Certified American Board of Internal Medicine
September 23, 1966

Certified Sub-Specialty Board of Endocrinology
October 17, 1973

Licensure: New York State Medical License #84132
June 1960

Professional Memberships: American Association of Clinical Endocrinologists
Alpha Omega Honorary Medical Society
New York County Medical Society
Endocrine Society
American Diabetic Society
American Thyroid Association

Abstracts:

- 1) Thyroid Cancers in Patients with HIV Infection. Gandiokota N, Yang J, Rivera LR¹, Leonardi O², Young I², Kim S², Kaviani N², Love C¹, Abdel-Dayem H¹. Division of Nuclear Medicine, Department of Radiology, Division of Endocrinology, Department of Medicine, Saint Vincent Catholic Medical Center, New York, NY, New York Medical College, Valhalla, NY.

- 2) Age-dependent variations in rhTSH versus THW Iodine-131 ablation of differentiated thyroid cancer. O'Connell WJ¹, Mikhaeil M¹, Sadek S¹, Mousavi A¹, Yang J¹, Lin H¹, Young I¹, Talavera J², Abdel-Dayem H¹. Division of Nuclear Medicine, Department of Radiology, Division of Endocrinology, Department of Medicine, Saint Vincent Catholic Medical Center, New York, NY, New York Medical College, Valhalla, NY.

Committees:

Vice Chairman, Pharmacy Committee of Saint Vincent Catholic Medical Centers until 2010
Chairman, Radiation Safety Committee of Saint Vincent Catholic Medical Centers until 2012

Listings:

American Health 1996 Best Doctors in America
Castle Connolly Listing, New York Magazine Best Doctors in New York 2001-2006
Top Doctors in New York 2002-2013

Reviewer for Annals of Internal Medicine, Endocrine Practice.

Since the closure of St. Vincent's Hospital, NYC in 2010, the following changes have occurred:

- 1) Associated with Langone, NYU Medical Center as Clinical Associate Professor of Medicine, Division of Endocrinology.
- 2) Have appointment as Firm Chief in Medicine, responsible for teaching second and third year medical students, and supervision of other teaching attendings.
- 3) Member of the Executive Committee of the Department of Medicine.
- 4) Member of the Education Council of the Department of Medicine.
- 5) Actively involved in the Division of Endocrinology in the education of Endocrine Fellows.
- 6) Instrumental in the recruitment of Ann Marie Schmidt, MD who is Director of Diabetes Program as the Iven Young Professor of Endocrinology and Pharmacology.
- 7) Actively involved with Development Program in further recruitment and funding of the Endocrine Research Program.
