CUREMD PATIENT PORTAL ACCESS

What is the Patient Portal?

Patient Portal is an online system that allows you to schedule appointments, request refills, view lab results, and communicate with your physicians more effectively. This will enhance your satisfaction, eliminate preventable errors, and open additional care collaboration between you and your providers.

How can you gain access to the Patient Portal?

1. Provide your doctor's office with your email.
2. You will receive an email with a username, password, and a registration link. (<https://cloud1.curemd.com/Portal/Site/Home.aspx>)
3. Go to the LOGIN page and login with your provided username and password.
4. You will be prompted to change your password. Once this is done, you will be redirected to your profile.
5. Complete the "Demographics" and "Contacts" forms.
6. Click on "Patient Forms," print, and complete them, and bring them with you to your next appointment.
